- No Code Automation with Zapier
- AI Automation with n8n

EXPERIENCE

Booking Appointment & Reminder Automation System

GoHighLevel | Automation & CRM

- Engineered a full-cycle appointment booking workflow managing 5,793+ contacts to automate CRM updates, booking confirmations, and client follow-ups, resulting in a significant reduction in missed appointments and improved client engagement rates.
- Configured automated multi-channel reminder sequences (24-hour and 1-hour triggers via email and SMS) to ensure timely client notifications, achieving consistent pre-appointment communication across the entire contact database.
- Streamlined end-to-end CRM data management by integrating booking automation with real-time contact record updates, eliminating manual data entry and improving overall operational efficiency.

Asana CRM Lead Engagement Workflow

Zapier | CRM Automation & Lead Management

- Developed a full lead lifecycle automation in Zapier integrating Asana task creation, email sequences, and follow-up scheduling to centralize lead management and eliminate manual handoffs.
- Implemented personalized email campaigns with quote reminders and service-based variations to deliver targeted communication at each lead stage, increasing engagement consistency and reducing response gaps.
- Reduced manual workload for the sales team by automating repetitive CRM tasks, resulting in faster lead response times and a more organized, trackable pipeline.

AI Lead Qualifier Automation

n8n | AI-Powered Workflow Automation

- Built an AI-powered lead qualification system in n8n that automatically analyzes incoming leads, applying scoring logic and smart routing based on qualification status to accelerate sales triage.
- Integrated automated lead scoring and reasoning workflows with Google Sheets logging to create a structured, auditable sales pipeline that enables data-driven follow-up decisions.
- Improved lead filtering accuracy and reduced manual evaluation time by deploying AI-driven qualification criteria, allowing the sales team to focus exclusively on high-priority prospects.
